

**0% to  
landfill  
100% of  
the time**

**Sustainability**

**WYBOSTON LAKES**  
R E S O R T

More Sustainable. No Apology.

Here at Wyboston Lakes Resort, we take our responsibility towards the environment and the effect our business has on it very seriously. That's why we're keeping things clean and are proud to promise another year of sending absolutely nothing to landfill.

**Single-use  
plastics  
suck!**

We all know the impact that single-use plastics have in our oceans. And that's why at Wyboston Lakes Resort, we now use paper straws and compostable coffee cups. We are part of the 'H20percentless' scheme and are driven to take small steps to make a big difference.

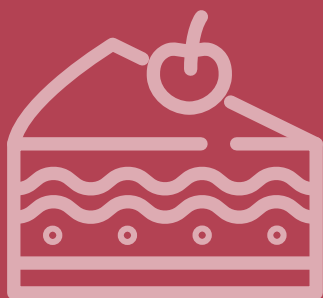

**Trees.  
Our preferred  
type of power  
plant.**

We have an active policy for planting trees in support of nature and nurture. We plant hundreds – from new saplings to semi mature trees. A number that's growing every year.

The attention given to the quality of our food is second to none. But so is our attention to food waste.

That's why we're always looking at ways to reduce food waste and deal with it in a way to benefit the environment.

# Great food with a slice of sustainability

## We actively put as little energy as possible into everything we do

We are working hard to deliver on our ambitious plan to reduce our carbon footprint by saving 21,000 kWh year on year.

Walk this way for a greener resort space.

## Just as important as our guests

The well-being of all our guests is paramount. That's why we're proud to maintain a nature reserve which is supported by the Wildlife Trust. It means we can take care of our guests and those we share the land with, all at the same time.
