

A story of success: GOTO Events Summer Party

“The team said they haven't laughed that much in a long time

Our team had such a fantastic time and are STILL talking about the summer party and everything that you and the team did to make it extra special, we can't thank you all enough!

The accommodation was perfect allowing us all to be in the same block was ideal and we all felt super secure knowing everyone was together. The new Drift Inn looks fantastic, and we can't wait to come back and see the finished product now that the Meeting Point is open. It was a shame we weren't able to use the spa but our team made full use of the swimming pool, golf course and games rooms during their down time which was greatly enjoyed by them all.

“The food was exceptional from start to finish

We have had bad experiences before at other venues, but those in the group with particular dietary requirements all commented how much range and options available there were for them, so they were all delighted. The BBQ at Sandpiper Bay was particularly fantastic!

The water park was a HUGE hit (not sure how I'm going to top that next year!) everyone loved this experience! The team said they haven't laughed that much in a long time and even the more reserved team members had a great time and commented how much they enjoyed it.

The team at Sandpiper Bay couldn't have done more for us, in particular Charlie who literally knew what we wanted before we even did! He was so flexible (even when I asked to change the layout 45 mins before the event was due to start...sorry again Charlie!) and was literally on hand for anything we needed. The impromptu addition of the slush machine was a particular highlight!

“We loved how friendly and helpful every staff member we encountered was and felt so at ease as soon as we arrived.”

Emma Freed | Senior Account Manager
